Comfort
SERIES

Cool and Efficient Indoor Comfort

Efficiency

Seasonal Energy Efficiency Ratio or SEER number is like gas mileage. The higher the rating, the more efficient the automobile or system is.

- Carrier's Comfort™ Series air conditioners are available with efficiency ratings starting at 11.0 and 12.0 SEER.

12.0
SEER
RATING

11.0
SEER
RATING

- As an ENERGY STAR® partner, Carrier Corporation has determined that Comfort™ Series air conditioners that achieve system combinations of 13.0 SEER or higher meet ENERGY STAR® guidelines for energy efficiency.

Things to Consider Before You Buy

Comfort

Carrier specializes in creating a customized home comfort system tailored to your needs with our broad selection of heating and cooling products. Your Carrier dealer can help you choose the best system for your home including Carrier-exclusive features that further enhance your indoor environment. Carrier's Comfort™ Series air conditioners deliver reliability and proven comfort.

- The efficient fan quietly moves outdoor air at lower speeds to help minimize noise and maximize cooling capabilities.
- Bothered by that dry, staticky feeling in the winter or that muggy feeling in the summer? IdealHumidity™ monitors and adjusts your home's humidity level even when the system isn't actively

IdealHumidity™

heating or cooling. By keeping the proper balance of moisture in your home, you remain more comfortable at higher temperatures in the summer and lower temperatures in the winter. Add a Carrier humidifier, variable speed furnace or fan coil and Thermidistat™ Control to achieve IdealHumidity™ in your home.

Durability

Neither rain nor hail nor golf or soccer balls can keep a Carrier system from doing its job – they're built tough inside and out.

Outside

- WeatherArmor™ III protection keeps your system looking and operating its best for years to come.
- Galvanized steel cabinet protects against corrosion, keeping your outdoor unit looking good for years.
- Heavy-duty wire grille prevents coil damage and promotes optimum airflow through the unit while making cleaning easy.

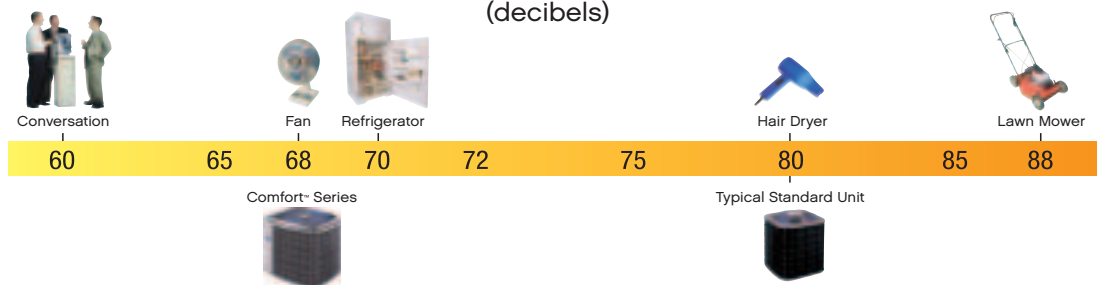

Inside

- Carrier's compressor design has the most trouble-free performance record of any compressor on the market today. An extra-thick shell protects the life of your compressor for excellent reliability.

Sound

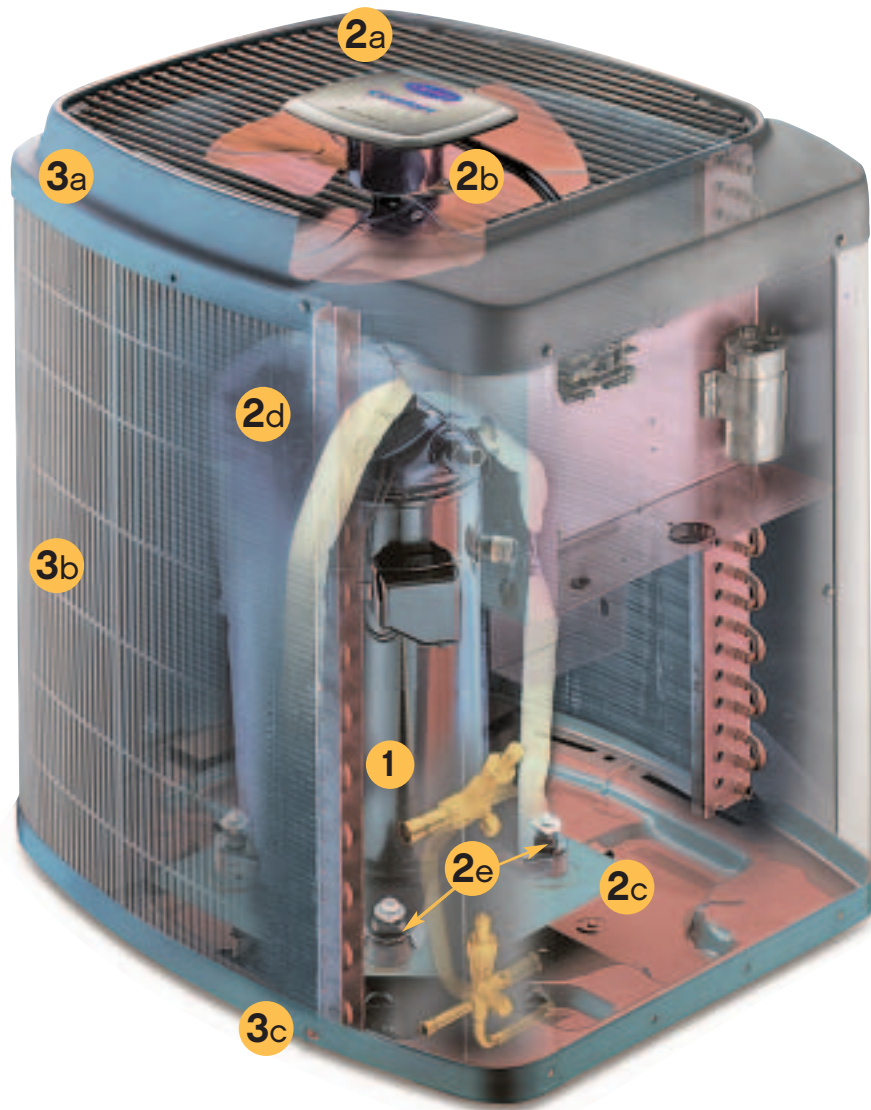

Carrier's exclusive Silencer System ensures extra-quiet performance by maximizing airflow while minimizing vibration. With sound ratings as low as 68 dBA, Carrier's Comfort™ Series air conditioners provide you with the quiet comfort you deserve. In fact, it takes almost sixteen Comfort™ Series air conditioners operating at the same time to equal the sound produced by one typical air conditioner.

Comparative Sound Ratings (decibels)

Technology

- 1 Compressor** – as the heart of the cooling system, the compressor pumps refrigerant throughout the system.
- 2 Carrier's exclusive Silencer System** – is designed for quieter operation by minimizing vibration and uses special insulation that helps absorb sound. The five key components include:
 - a. Silencer top
 - b. Integrated fan motor and blade
 - c. Compressor vibration isolator plate
 - d. Sound hood
 - e. Split-post compressor grommets
- 3 WeatherArmor™ III protection package** – combines three design elements that protect your comfort.
 - a. Galvanized steel cabinet
 - b. Heavy-duty wire grille
 - c. Ceramic-coated screws

Carrier's Comfort™ Series air conditioners include a 10-year limited warranty on the compressor and a five-year limited warranty on the entire unit. Extended warranties are also available. Ask your Carrier dealer for details.

Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
